In-text citation used in the code comments

(Anthropic, 2026)

Declaration of AI use

The source code in this project (controllers, models, database helper, token
service, Program.cs and Database) was generated with the help of Claude AI, a large
language model made by Anthropic, in response to my prompts about my POE
requirements. I set up the database and project.
Every file starts with a reference comment, and every class and method has a
"Code written by Claude AI (Anthropic, 2026)" comment above it.

Prompts

The prompts I gave to Claude AI are listed word for word in
Prompts_Appendix.txt (Appendix A) in Visual Studio. Cite it in the text as:
(Anthropic, 2026, see Appendix A).
